

Gastro Care

Gastro Care is a scientifically-formulated food supplement designed to have a multi-faceted approach to gastro-intestinal health.

Gastro Care contains Antacids that help mimic the effects of saliva and protect the stomach lining from acid. Soluble fibres can absorb, and buffer excess acid and L-Glutamic acid can help to aid the regeneration of the stomach lining. Can also help with Crib Biters and Wind Suckers.

- **Sodium and calcium carbonates** act as antacids by helping neutralise excess gastric acidity to allowing gastric mucosa to repair.
- **Apple fibre and pectin complex.** Apple fibres and pectin supply soluble and insoluble fibres and help to stabilise the protective layer of mucus on the stomach lining as well as binding (neutralising) bile acids.
- **L-glutamic acid** contributes to the health of the digestive system

Gastro Care Active Ingredients Per Kg

Carbonates 313g (sodium carbonate 280g, calcium carbonate 33g), L-Glutamic acid 218g, apple fibre pectin complex 200g (apple fibre 167g, pectin 33g), Dicalcium Phosphate 75g
